## POWELL RIVER

### Powell River, BC

Thanks to one of the mildest climates in Canada, gardening, golfing and fishing are year-round activities in Powell River. Add in a thriving arts and cultural community, and spectacular West Coast scenery, and you'll see why those who visit want to stay! Powell River is just 134 km northwest of Vancouver and accessible by car and ferry (five hours) and air (half an hour). Forestry, tourism and fishing are the major industries. The town is large enough to offer every amenity to its 20,000 inhabitants, but small enough to maintain a friendly community ambiance. Residents enjoy world-class fishing, hiking, diving, canoeing, sailing, walking and kayaking.

#### Health Care Services

**Powell River General Hospital** is one of our newest facilities and is a fully accredited 33-bed acute care facility. The hospital has a busy emergency unit with a physician present 24 hours a day, a 4-bed intensive care unit, a 24-bed medical/surgical ward, a 4-bed maternity floor, and an active operating room.

**Evergreen Extended Care** is equipped with services and staff devoted to providing a comfortable living environment for its residents. Evergreen offers key services such as doctors' care, nursing care laboratory services, medication management, specialized physiotherapy and occupational therapy, nutritional services, spiritual and palliative care.

**Willington Creek** is a residential care facility that provides 24-hour care to its residents. Other health related services offered are physiotherapy, occupational therapy and consultations with a Registered Dietician.

**Mental Health Services** are structured with an integrated multidisciplinary team approach. Powell River is pleased to support a 5-bed inpatient Psychiatric Unit.

**Home and Community Care Services** are designed to supplement, rather than replace, the efforts of individuals to care for themselves at home with assistance of family, friends and community. Community Health Workers, Home Care Nurses, Case Managers, and Rehabilitation Workers offer their services to the Powell River area.

**Powell River Community Health Center** provides an array of public health and preventative services including health protection, health promotion and prevention and early intervention services. The unit is staffed with public health nurses, nurse practitioner, environmental health officers, dietitians, speech-language pathologists, audiologist, needle exchange workers, licensing officers, lactation consultants, community developers, tobacco reduction coordinators, and support staff.
